

ENTERPRISE LEARNING MANAGEMENT SYSTEM

Prepared By:
Team Orblogic

COMPANY

The client is a multinational corporation with a global presence and offices in multiple countries.

CHALLENGE

As the company expanded, managing employee training and development became increasingly challenging. The HR department was overwhelmed with administrative tasks, and a centralized system was needed to track employee progress, provide analytics for decision-making, and ensure compliance with training requirements.

SOLUTION

The client company implemented the Orblogic HRMatrix Enterprise Learning Management System (LMS) to address these challenges. They conducted a thorough needs assessment to identify specific requirements and objectives. The Orblogic HRMatrix LMS offered all the necessary features, including:

1. **Intuitive Course Builder:** The HRMatrix LMS allows for easy course creation by utilizing various content types such as videos, PDFs, PowerPoints, and Word documents. This streamlined the course development process, enabling the organization to create courses quickly.
2. **Flexible Question Creation:** The HRMatrix LMS provides a built-in capability to create custom questions for each course. Organizations can create tests based on passing percentages, ensuring effective evaluation of employee knowledge.
3. **Employee Skill Development:** HRMatrix facilitates a unified learning platform for enhanced employee learning experiences and skill development. It empowers employees to acquire the necessary skills to meet future demands and achieve their career goals.

4. Compliance Training Program: HRMatrix supports a comprehensive compliance training program, ensuring employees meet regulatory requirements. It enables the organization to deliver compliance-related courses effectively.

5. Course Completion Tracking: The LMS allows efficient tracking of employee course completion records to meet audit and compliance requirements. Organizations can easily monitor who has completed courses and ensure compliance standards are met.

RESULTS WITH TANGIBLE OUTCOMES

By implementing the Orblogic HRMatrix LMS, the client company achieved significant results:

- Centralized Management: The LMS provided a single platform to manage and track employee learning and development activities, eliminating the need for multiple systems and manual tracking methods. This increased consistency across the organization, saved the HR team up to 82% of their time, and improved efficiency.

- Customization: The customizable nature of the HRMatrix LMS allowed the client company to tailor training programs to their unique business needs and compliance requirements, ensuring maximum effectiveness.

- Accessibility and Flexibility: The LMS's web-based access from any device and location-enabled employees to learn on the go, fostering flexibility and accessibility.

CONCLUSION

Implementing the Orblogic HRMatrix Enterprise LMS delivered significant benefits to the client company. It reduced costs associated with employee training, streamlined administrative processes, and provided real-time data and analytics for informed decision-making. The HRMatrix LMS proved valuable in driving employee development and ensuring compliance with training requirements.
