

Orblogic IT Services

Drive Efficiency with Smart IT Solutions

Providing Solutions To Help Business Grow

Orblogic is a leading provider of IT and HR management solutions, delivering innovative, tailored services to enhance business operations across diverse industries. Focusing on leveraging advanced technologies, we ensure clients achieve operational efficiency, cost savings, and superior workforce management.

About us

Orblogic is a leading provider of custom IT solutions, specializing in AI, automation, cloud computing, and cybersecurity. We empower businesses with cutting-edge technology to enhance efficiency, security, and scalability. Our expert team delivers tailored solutions that drive digital transformation and innovation, ensuring our clients stay ahead in an evolving tech landscape.

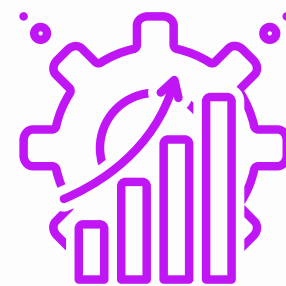

Objectives

Orblogic drives Innovation, Efficiency, and Security through custom IT solutions. We enhance business performance with AI, automation, and cloud while ensuring robust cybersecurity for digital resilience.

Innovation

We empower businesses with tailored technology solutions that align with their unique goals, enabling them to stay ahead in a competitive digital landscape.

Efficiency

By leveraging cutting-edge AI, automation, and cloud computing, we streamline operations, optimize workflows, and drive smarter, data-driven decision-making.

Security

Our robust cybersecurity strategies and compliance frameworks protect businesses from evolving threats, ensuring operational continuity and regulatory adherence.

Our services

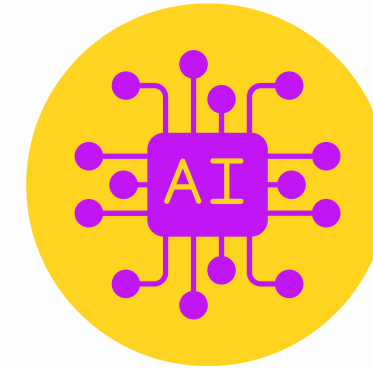

Cloud Computing

Design, implement, and manage cloud-based systems on platforms like AWS, Azure, and Google Cloud.

DevSecOps & Automation

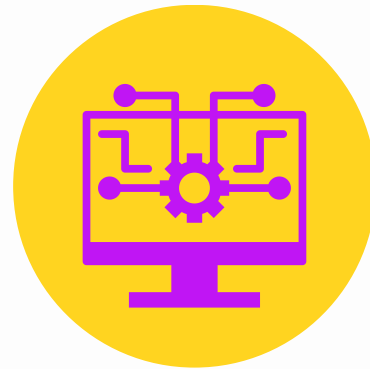

Efficient CI/CD pipeline creation, improving software development speed and quality.

ML/AI Solutions

Implement AI-driven systems for automation, predictive analytics, and machine learning, enabling data-driven decision-making and operational efficiency.

Our services

Custom Software Development

Full-cycle software development services, including architecture design and multi-platform functionality.

Web & Mobile Development

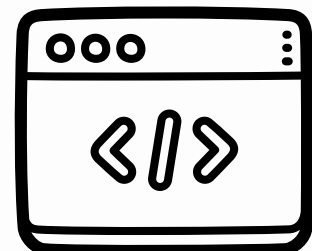

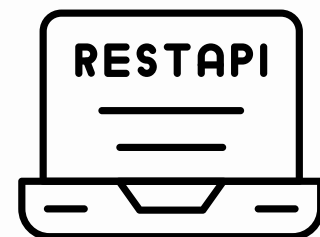

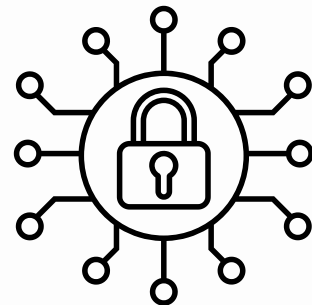

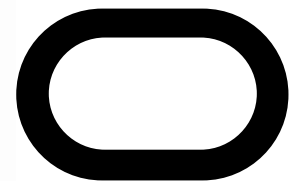

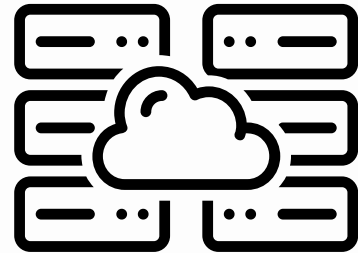

End-to-end solutions for dynamic web applications and cross-platform mobile apps, focusing on intuitive UX/UI design.

Cybersecurity Solutions

Detailed evaluations of system vulnerabilities and compliance.

Technologies

Servers, Databases, Web Servers, App Servers, Azure Public Cloud, Amazon Web Services Public Cloud

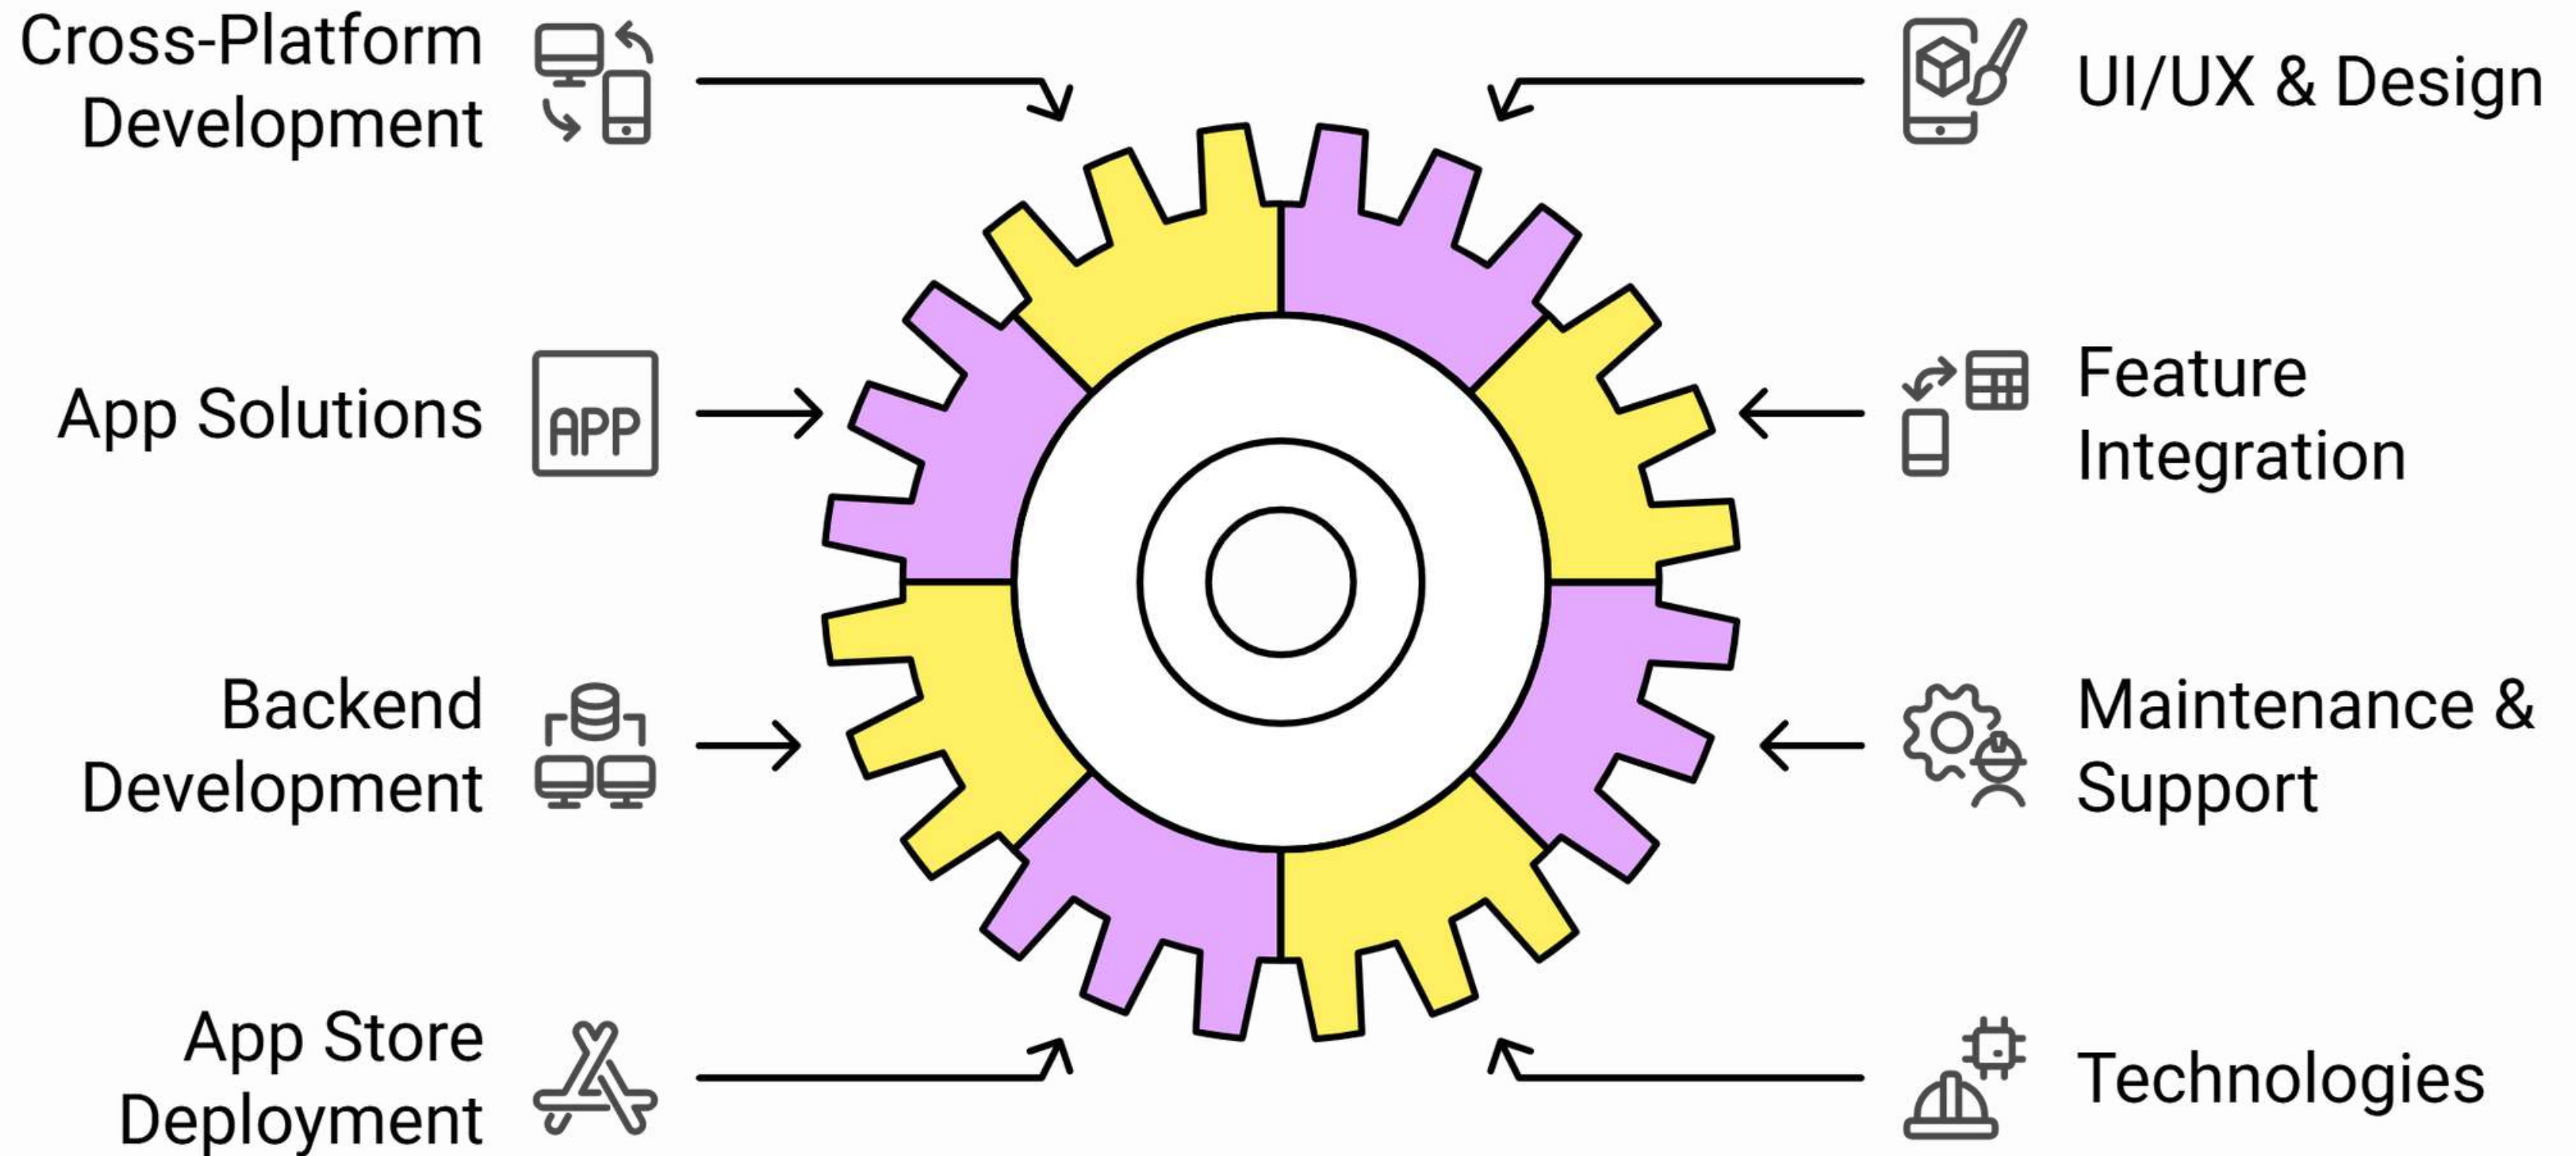

Oracle Cloud Infrastructure Public Cloud

Cybersecurity Threat Modeling, Cybersecurity Static Application Testing, Cybersecurity Dynamic Application Security Testing, Cybersecurity Software Composition Analysis Testing

Compliance Management, CI & CD, Web Applications, Restful API

Machine Learning, Computer Vision, Microsoft Development Stack, Mobile App Development, IT Architecture

Mobile App Development Services

1. Cross-Platform Development

React Native for seamless iOS & Android apps

2. UI/UX & Design

Wireframes, prototypes & interactive design

3. App Solutions

Enterprise, E-commerce, On-Demand, & Custom Apps

4. Feature Integration

Push notifications, in-app purchases, payment gateways, geo-location, real-time chat

5. Backend Development

API integration, cloud services (AWS, Firebase), database management

6. Maintenance & Support

- Updates, bug fixes, performance monitoring, security patches

7. App Store Deployment

- Submission, compliance & optimization for App Store & Google Play

8. Technologies

- Frontend: React Native
- Backend: Node.js, PHP

Monitoring

1. Custom Web Development

- Tailored websites built from scratch for business needs

2. Front-End & UI/UX Design

- HTML, CSS, and JavaScript (React, Angular) for engaging interfaces
- Responsive, intuitive, and visually appealing designs

3. Back-End & Full-Stack Development

- Server-side development (Node.js, PHP, Python, Django)
- Database management (MySQL, MongoDB, PostgreSQL)
- Complete web application solutions

4. E-commerce Development

- Online stores with Shopify, WooCommerce, Magento, or custom solutions

5. Web Applications & PWAs

- Interactive web-based apps & Progressive Web Apps (PWAs)

6. API Development & Cloud Solutions

- API creation & integration for seamless platform communication
- Cloud hosting & scalability (AWS, Azure, Google Cloud)

7. Web Optimization & SEO

- Site speed, search engine optimization & conversion rate improvement

8. Security & Compliance

- SSL, cybersecurity protocols, and regulatory compliance (GDPR, HIPAA)

9. Maintenance & Website Redesign

- Ongoing support, updates & modernizing outdated websites

10. Web Analytics & Performance Monitoring

- Google Analytics & data-driven optimization

Resources

Orblogic takes pride in its team of highly skilled professionals, offering clients access to a wide range of expert resources.

- **IT Engineers**
- **Web Developers**
- **Mobile App Developers**
- **Cybersecurity Solution Architects**
- **Cloud Solution Architects**
- **AI Solution Architects**
